#### **INSTRUCTIONS TO STUDY COORDINATORS:**

- 1. Do not send **Section A** (pages 1-2) to the family with questionnaire. This section must be completed by study coordinator after receiving completed questionnaire from participant's family.
- 2. Instruct the family to complete the information on the front page of the ASQ. This information may be transcribed on to Section A by the study coordinator when the instrument is returned to the study center.
- 3. Affix patient ID study label on the front page after receiving completed questionnaire from participant's family. **Blacken all confidential information** such as child's name, telephone number, mailing address on this page. Photocopy entire packet and maintain in the study subject's research file.
- 4. Re-attach **Section A** (page 1- 2) to the completed questionnaire and send original instrument packet to DCC.

#### **INSTRUCTIONS TO FAMILIES\***

- 1. Try each activity with your child before checking a box.
- 2. Try to make completing the questionnaire a game that is fun for you and your child.
- 3. Make sure your child is rested, fed, and ready to play.
- 4. If you have questions or concerns about your child or about the questionnaire, feel free to ask your study coordinator for assistance.
- 5. All information is strictly confidential, and your name will not be used in any reports. This questionnaire is completely voluntary and will not affect your medical care. Please answer each question as accurately as you can.

#### SCORING THE QUESTIONNAIRE

- 1. Be sure each item has been answered. If an item cannot be answered, refer to the ratio scoring procedure in The ASQ User's Guide.
- 2. Score each item on the questionnaire by writing the appropriate number on the line by each item answer.

 $YES = 10 \qquad SOMETIMES = 5 \qquad NOT YET = 0$ 

- 3. Add up the item scores for each area, and record these totals in the space provided for area totals.
- 4. Indicate the child's total score for each area by filling in the appropriate circle on the chart below. For example, if the total score for the Communication area was 50, fill in the circle below 50 in the first row.

Examine the blackened circles for each area in the chart above.

- 5. If the child's total score falls within the  $\square$  area, the child appears to be doing well in this area at this time.
- 6. If the child's total score falls within the area, talk with a professional. The child may need further evaluation.

OPTIONAL: The specific answers to each item on the questionnaire can be recorded below on the summary chart.
